

Central Texas Commercial College
9400 N Central Expressway
Dallas, TX 75230

Dear Mrs. Turner:

Attending Central Texas Commercial College was an excellent decision. When I first enrolled, I had no idea of how much the education I would receive there would make such a difference in my life. I am currently working at Children's Medical Center, and I am using every skill that I learned in school.

I have nothing but good things to say about CTCC. All the school did for me was simply help me begin a great career that I enjoy. I am very confident about what I learned at school, and sometimes I just wish I had just paid a little more attention in some of my classes. At the time it may not seem that big of a deal, but when it comes down to your pay, many times it can come down to what you can or cannot do.

Thank you a lot for accepting me as a student and giving me an opportunity to excel in the medical field.

Sincerely,

Miguel Ojeda
ER Patient Access Representative
Children's Medical Center
